CALL FOR PAPERS

The use of biometric measurements is acquiring a significant importance in many security and medical applications, not only from the theoretical point of view but also from the industrial perspective and practice. This workshop aims to present and discuss various technological, methodological and application issues in these areas, especially concerning, but not limited to, advanced sensors, signal/image processing techniques, pattern recognition approaches, systems and applications. Papers are solicited on all aspects of biometric theory and practice with particular reference to biometric-based measurements and systems in the context of security and medical applications.

PAPER SUBMISSION

Submit extended abstract or draft papers by **31 May 2013**.

Details for the submission and all information concerning the workshop can be found at the symposium web site at <http://bioms2013.di.unimi.it>

Acceptance/rejection will be emailed by 30 June 2013. The final manuscript is due by 20 July 2013. Papers will be included in the proceedings only if at least one author will register by 20 July 2013 - no exceptions.

CONFERENCE VENUE

The conference will be held at the Aula Magna of the Centro Congressi Federico II, Naples (Italy) – <http://www.centrocongressi.unina.it>

SPONSORSHIP

This workshop is sponsored by the **IEEE Italy Section** and by the **IEEE Italy Section Biometrics Council Chapter** and has the technical co-sponsorship of the **IEEE Italy Section Systems Council Chapter**. It is also endorsed by **GIRPR**, the Italian Chapter of the International Association of Pattern Recognition (**IAPR**).
